## THANKS RESONANCE

I would like to thank my Parents, Teachers and Friends those who have been instrumental in moulding my present. I would have been nothing without the guidance of my parents & teachers. I have been blessed with best of Teachers all through. While it is indeed crucial for a teacher to guide a student towards his or her academic goals it is equally if not more important for a teacher to instill in his/ her student a sense of curiosity. Believe me when I say that I can be a very nagging presence in the classroom, the perpetual stream of questions however never seem to irk my teachers. They would always make sure to answer but would simultaneously keep me thirsty for more. How they did this is beyond my comprehension. I have the deepest gratitude for all of my teachers. All of you striving towards your goals make sure you find yourself a guide . A guide to show you the light, to give you a reason to seek & to make you happy.
